

OPTIMIZED FOR  
Faster Scanning

# TissueScope™ LE Slide Scanner

The best in whole slide imaging, only better.

Newly redesigned, the award-winning<sup>1</sup> TissueScope LE scanner sets the standard for versatility, throughput, and ease of use. Scan up to twelve 1" x 3" brightfield slides, three 2" x 3" slides, or any size slide up to 6" x 8".

## Key Features

- Easy to use
- Fast: <1 minute per slide<sup>2</sup>
- Sharp, clear image quality up to 40X magnification
- Scan up to twelve standard 1" x 3" slides, or any size up to 6" x 8" for unmatched versatility
- Z-Stack scanning
- Image-based barcode reading
- Pair with the TissueSnap preview station for enhanced workflow optimization

Different slide sizes? Difficult slides?  
No problem.

Rely on our unique tray-based slide holder to safely scan multiple slide sizes from 1" x 3" to 6" x 8". Have faint tissue, chipped slides, thick slides, or multiple bar codes? We can image them.

## Technical Specifications

Imaging Mode	Brightfield
Slide Formats	25mm x 75mm (1" x 3") 50mm x 75mm (2" x 3") Any slide up to 150mm x 200mm (6" x 8")
Optical Resolution	0.75 NA
Resolution (µm/pixel)	0.2 at 40X 0.4 at 20X
Scan Speed	<1 minute per slide <sup>2</sup>
File Format	Non-proprietary 24-bit RGB pyramidal BigTIFF Uncompressed, JPEG or JPEG2000 compression Export to JPEG, Flat TIFF and LZW compressed TIFF
Dimensions & Weight	61cm (24.1") Width 56cm (22.2") Length 40cm (15.9") Height 39Kg (85lbs) Weight
Certification	CSA/UL/CE
Warranty	One year

<sup>1</sup> Validated Versatility Award, 3rd International Scanner Competition

<sup>2</sup> 15mm x 15mm @ 20X magnification

## Bundle image management and analysis

### Image Management.

Add image management to your TissueScope LE scanner for a complete slide scanning and management solution.

### Image Analysis.

We have partnered with the leading image analysis software vendors to provide image analysis solutions for both clinical and research.

## Optimize your workflow with the TissueSnap preview station

The TissueSnap preview station works with our TissueScope scanners to offload time consuming tasks such as preview scanning and batch pre-processing so the scanner can work at peak throughput and performance.

## About Huron Digital Pathology

We believe that innovation is the key to making digital pathology a ubiquitous reality. But for us, innovation is about more than just delivering great image quality and fast scanning speeds. It's also about designing products that are simple to use, easy to integrate with your workflow, and have attractive price-performance characteristics.

Based in Waterloo, Ontario, Canada, Huron Digital Pathology has a 20 year history designing sophisticated imaging instrumentation. Our end-to-end digital whole slide scanning solutions for digital pathology incorporate our award-winning TissueScope™ digital slide scanners, image management software, and our workflow-enhancing accessories, which include our innovative TissueSnap™ preview scanning station.

The TissueScope™ scanner is intended for research and educational purposes only. TissueScope™, TissueSnap™ and Huron Digital Pathology™ are trademarks of Huron Technologies International Inc.

The TissueScope™ scanner is based on one or more of the following: U.S. Patents 8,896,918 B2/8,655,043/7,218,446 B2 / 6,072,624; EU patent 2758825; U.S. and International patents pending.
